Come and find out about the extraordinary life of Devon's Swifts – and how you can help them.

A free illustrated talk by John Walters and Jerry Horn

7.30pm TUESDAY 25th JUNE

TEIGN VALLEY COMMUNITY HALL, CHRISTOW

Swifts are amazing birds. They come here for just three months of every year to breed. But their numbers are declining, mostly because of a lack of nest sites.

But we can help. This year, the Devon Swift Project has installed Swift boxes in all the Teign Valley churches.

Many people have put nest boxes on their houses too. A display of Swift boxes, advice and information will also be available.

FREE ENTRY WITH DONATIONS TO DEVON BIRDS FOR THE PROJECT
